SECTION 4 - FIRST AID MEASURES

Remove any contaminated clothing. Wash thoroughly with soap and water. If irritation or adverse

symptoms develop, seek medical attention.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN EVENT OF SPILL OR RELEASE Remove all sources of ignition. Wear appropriate personal protective equipment as specified in Section 8.

Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparkling tools and equipment. Reduce airborne dust and prevent scattering by moistening with soapy water. Pick up spill for recovery or disposal and place in a closed container.

SECTION 7 – HANDLING AND STORAGE

Avoid dust formation and control ignition sources. Employ grounding, venting, and explosion relief provisions in accord with accepted engineering practices in any process of capable of generating dust and/or static electricity. Empty only into inert or non-flammable atmosphere. Emptying contents into a non-inert atmosphere where flammable vapors may be present could cause a flash fire or explosion due

to electrostatic discharge. Do not use near food or drink. Avoid eye contact. Use with adequate ventilation. Wear personal protection equipment recommended in Section 8. Reseal containers

immediately after use.

STORAGE Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

OSHA Permissible Exposure Limit (PEL): 15 mg/m³ total dust.

EXPOSURE LIMITSOSHA respirable fraction TWA 5 mg/m³
ACGIH Throspold Limit Value (TLV): 10 mg/m³

ACGIH Threshold Limit Value (TLV): 10 mg/m³.

ACGIH respirable fraction: 3 mg/m³.

RESPIRATORY PROTECTION

HANDLING

Work ambient concentrations should be monitored and if airborne concentrations are expected to exceed acceptable levels, wear a NIOSH/MSHA-approved dust air-purifying respirator. When using respirators,

refer to OSHA's 29 CFR 1910.134.

VENTILATIONProvide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below level

of overexposure.

EYE PROTECTION Safety goggles recommended. Permanent eyewash is highly recommended.
